PRESIDENT'S MESSAGE

Dear Colleagues

I hope this edition of the IAPM Newsletter finds everyone in happy spirits as we prepare for the upcoming festival season. Over the last few years, I have noticed that disparities exist in the standards of pathology reporting in our country. Much of it is of course related to the availability of special techniques to confirm/exclude morphological differential diagnoses at a particular laboratory. There is also no escaping the fact that the quality of training and range of exposure that one has received during residency might influence the ability to recognize a given lesion. But at least, some of this discordance or over- or under-reporting is also due to the circumstance that our colleagues, once out of formal training, have very few opportunities to upgrade their skills, leave alone acquire new ones. Classifications, criteria and technology are continually evolving, and to keep pace with them is not easy outside the academic centres and hence updating is even more challenging.

There are many ways to tackle this issue, once we acknowledge that it exists. Accreditation and educational reforms come to mind at once. However, one approach that I feel is likely to yield more rapid returns is that we have many world-class institutes in our country that have at their disposal manpower and expertise to take upon themselves the mantle of providing continuing training, teaching and skill-transfer to pathologists. It would be wonderful if they could open their doors to take many more observers or short-term trainees in addition to organizing quarterly or half-yearly workshops. In this era of information technology and the internet, hosting free-to-attend webinars, slide discussions or having e-portals to discuss difficult cases might also be another way ahead. In this issue, the list of institutes offering Fellowships of Indian College of Pathologists in different sub-specialities is included. Of course, the IAPM Annual Conference remains an excellent way to update oneself on the latest in the field, and also meet and network with fellow professionals. We all are looking forward to the APCON-2015 being organized in the beautiful and historic city of Kochi.

Wishing everyone the best of the upcoming festive season,

Dr. Tejinder Singh
Senior Consultant, Oncquest
President, IAPM (2015)

SECRETARY'S MESSAGE

Dear Members

We are now looking forward to our annual conference APCON 2015 at Kochi, Kerala. With efforts of all the present and past office bearers, we may usher in a new era in our association. The SOPs of most of our sessions are ready and operational, and it is time to shrug off the "chalta hai" attitude so that activities of our association reach international standards. I appeal to all my seniors and friends to urge our postgraduates to become members as they enter their residency program and offer guidance in all aspects, including preparation of the abstracts. There has been a change in the program and I request all to make a note of it. There is also a special General Body meeting on the first day of the IAPM sessions (4th December 2015) to make changes in the constitution/ bye-laws of the association and all are free to give their suggestions, before 31st October 2015, but after going through the constitution (available on the web-site). Wishing one and all the best for the upcoming festive season.

Pradeep Vaideeswar

ANNUAL REPORT OF THE CHAPTER ACTIVITIES

Dr. Sharada Rane, Joint Secretary IAPM

1. Bihar Chapter: The 12th annual conference of IAPM, Bihar Chapter (BAPCON) was held on 8th and 9th of November 2014 at International Convention Center, Rajgir (Nalanda), Bihar. The inauguration of the conference and release of souvenir and Directory of IAPM members, Bihar was done by Health Minister of Bihar, Mr. Ramdhani Singh. Various topics related to hematology, histopathology and hematology were discussed by eminent faculties such as Dr. Tanuja Shet (Mumbai), Dr. Sushant Mukherjee (Patna), Dr. Shrikant Bharati (Varanasi), Dr. Asitava Mondal (Kolkata) and Dr. Vijay Kumar (New Delhi).

2. Chattisgarh Chapter: The Association of Pathologist and Microbiologist Chhattisgarh Chapter had organized their 12th Annual Conference at Raipur on 8th and 9th November 2014. The topics covered in conference were pathophysiology of malaria and slide seminar on cytology of Infectious lesions by Dr. Sharada Rane (Pune), New Bethesda system of reporting of thyroid cytology by Dr. Sadhana Mahore (Nagpur), Myth and fact of blood transfusion practices by Dr. Sharad Jain (Jabalpur) and

transfusion reactions by Dr. Vijay Shrivastava (Jabalpur). There was also a panel discussion on diabetes mellitus.

Beside this conference, two CMEs were also organized by association on DNA flow cytometry – Basics & its clinical applications and Liquid-based cytology.

3. Madhya Pradesh Chapter: This conference was organized almost after 10 years by Mahatma Gandhi Memorial Medical College, Indore and was held on 11th and 12th of October 2014. It focused on the theme of hematology, cytology and histopathology. Workshop on grossing techniques of surgical pathology was moderated by the team of Tata Memorial hospital. Sessions on cytology by Dr. Mondal, hematology by Dr. Lokwani and Dr. Sharada Rane, CME on flow cytometry by Dr. Sumeet Gujral was followed by panel discussion by oncosurgeons and renowned pathologists from state. More than 200 delegates attended the conference.
