

Pre conference Workshop

As a part of our annual workshops on Hematolymphoid neoplasms, we are pleased to announce that we will have our next workshop at Gandhi Medical College Bhopal on Wednesday December 6th, 2017. This will be a pre-conference workshop under the auspices of Annual Conference of IAPM -APCON 2017 at Bhopal.

Theme: "Accessory cells: Hematolymphoid neoplasms"

You may attend the workshop as a delegate or as a faculty. Workshop will include a few talks followed by interesting cases on such lesions.

If you wish to be a faculty, please send a fully worked up case of any lesion (benign or malignant) of the lymphoid accessory cells (histiocytic, dendritic etc) to the coordinator of the meeting (Dr Anita Borges and Dr S Gujral). It may be tissue based (nodal or extra nodal) or else hematology (flow related) case. Case should have a complete workup with various ancillary techniques. You may also present data of such disorders (if any) with its subtypes in the same presentation. Time allotted for case presentation will be 8 minutes and additional 5 minutes for discussion (total 13 minutes per case). The organizers will not be able to provide any travel grant or local hospitality.

Registration to the main conference as well as workshop is mandatory.

Last date of sending details of the case : November 20

Selection of cases : November 30

Workshop date : Wednesday, December 6th, 2017

Venue : Gandhi Medical College, Bhopal.

Please circulate it among your colleague pathologists, medical/radiation oncologists and others interested in management of hematolymphoid neoplasms. Let us know if you have any queries. Look forward to an exciting meeting.
