

## Dr.(Col) Sridhar Satyanarayana

DOB- 07.09.1954

DOD- 15.05.21

Dr.(Col) Sridhar Satyanarayanatook birth in Venkatgiri, Nellore. He did his MBBS in 1975 from S.V.Medical College, Tirupati, Andhra Pradesh and passed his MD(Pathology) from AFMC, Pune. He had affiliations to several institutes and completed 31 years of service in Armed Forces as Medical Officer, Pathologist, senior advisor, adjutant in field hospitals, commanding officer in ADS and Administrative in-charge of 1170 bedded hospital and took voluntary retirement from Armed Forces in 2007. Then he joined GSL Medical College as HOD, Pathology. He was instrumental in investigations of outbreaks of typhoid, cholera, dysentery, falciparum malaria and BCG lymphnode abscess. Accreditation of cytology laboratory and establishment of immunohistochemistry in Base hospital, introduction of needle necropsy, designing and developing a portable field laboratory for disasters for WHO, introduction of problem based tutorial for UG and student feedback in AFMC were few of his achievements. His area of interest was cytology of breast, lymph nodes, infective lesions and pathology of AIDS. He was very active academically and was a popular teacher and examiner among postgraduates.

He was an active member of the international Academy of Pathologists-Indian Division and the International Academy of Cytology. He also has been an executive member of Indian Academy of Cytologists, Editor-in-Chief of Indian Journal of Pathology and Microbiology, editorial board member of Journal of Cytology and panel of referees of Medical Journal Armed Forces of India. He had published many articles in national and international journal and was an invited speaker in international conferences.

He lived a very successful life but sadly passed away at the age of 67, survived by his wife Smt. Mallika and two daughters.

He will be fondly remembered by members of IAPM and all the UG, PG students who have come in close contact with him.
