PRESIDENT'S MESSAGE

My Dear Friends,

Warm regards and best wishes to all members of our Association - IAPM.

It gives me immense pleasure to reach out to all of you in my capacity as the President of IAPM (2018). I thank you for having reposed your trust and faith in me. I do feel and express the hope; that together we will take the IAPM to even greater heights in this millennium. Prof. Ashim Das, my predecessor, has worked hard and set high standards during his Presidential tenure and it will be the collective endeavor of the new team to ensure that the pace for some functional reforms underway; does not slow down. We are just fresh from the wonderfully well-organized and academically stimulating national conference at Bhopal. Dr. Reeni Malik and her team deserve accolades for planning the event down to the minutest details and providing a very smooth learning and networking experience. The Scientific Committee ably led by Prof Siddhartha Datta Gupta gave an experimental touch to the scientific program, which drew every ones attention. Hopefully, by showing young trainees and young faculty / practitioners; their future prospects in pathology and giving them hopes that bright future is ahead of them in Pathology by the opening up of newer sub-specialties with this vastness. However, burning problems still remain ; our curricula require urgent updating, quality of both teaching, learning and evaluation are currently highly variable. Quality practices in the laboratories are highly diverse and needs standardization across the country. Our colleagues in the private sector face unfair and cut-throat competition from various sections of under-qualified and differently-qualified practitioners of laboratory medicine. This needs immediate attention and we must raise our voice collectively at the highest level of policy making. Practicing Pathologists in the field are as much important to us as academic pathologists in teaching medical institutions.

Formulation of the scientific content of our annual event is in a flux and the scientific committee is working over-time to decide on it and give you a meaningful, contemporary and relevant to the times program. Our membership process has gone on-line and our Hony Secy / Hony Treasurer have worked hard for this. There are issues in the receipt of the IJPM Journal by members and we have taken some policy changes in its circulation and dispatch. But even in the face of these formidable challenges, I remain hopeful to make our Association one of the best National bodies. I, do hereby invite innovative and out of the box ideas from our younger members to consider bringing in changes to our functioning. You are free to mail me with cc to our Hony Secretary in a no holds barred manner. Everything may not see the light of the day but possibly some could. I look forward to working closely with all the Executive Committee Members in my tenure. I am happy that Dr. Sharada Rane is bringing out the first newsletter of the year. I expect your views on various issues concerning all of us.

God Speed IAPM !!!!

Dr. (Col) Deepak K Mishra

SECRETARY'S MESSAGE

At the outset, I would like to wish all our members a happy and healthy 2018 and also welcome the new office-bearers who would take our association forward. It is time now for gear up for APCON 2018. The first Newsletter of the year contains important information for the forthcoming APCON 2018 at Bareilly. The instructions for the various sessions are fairly explicit so that there are no misunderstandings and I do hope that the members follow the dates of the deadlines. All details will be uploaded on our website in near future and will be available in the next newsletter.

In addition, members have to note that newsletters will be uploaded on to the IAPM website only as per the decision taken in General body, 2017.

Your Suggestions and criticisms are essential for further improvement in the working of the association and they are most welcome

Requesting all the members to go through it and email all suggestions. I look forward to your continuing support.

Dr Sharada Rane

EDITORIAL

Dear Members,

At the outset I take this opportunity to thank all those who have put their trust in me by considering me worthy of taking up this challenging position. The journal has already achieved a high standard with good repute. Authors from various countries are contributing their manuscripts furthermore generating more of foreign revenue. My main emphasis is to reduce the turnaround time of the manuscripts submitted to Indian Journal of Pathology and Microbiology.

Impact factor of any journal signifies the number of absolute (or total) citations. It eliminates some of the bias of such counts which favor large journals over small ones, or frequently issued journals over less frequently issued ones, and of older journals over newer ones. All things being equal, the larger the number of previously published articles, the more often a journal will be cited. Perhaps the most important and recent use of impact is in the process of academic evaluation. The impact factor can be used to

provide a gross approximation of the prestige of journals in which individuals have been published. I therefore request everybody to cite more and more of the published articles in IJPM thus contributing to its Impact factor.

As per the decisions of IAPM EC and GBM during APCON 2015 IJPM is an open access journal and made ONLINE ONLY for all the IAPM members registered after 2000. Members registered in or before the year 2000 will be sent hard copy (print version) of IJPM. Accordingly the print copy of the journal will not be sent to the members who have life membership number after L-2096. Members who are entitled to get IJPM are advised to update their addresses if they are not getting print copies of the journal.

Corresponding authors with publication in an issue of the journal will get a complimentary copy.

Online version is freely available at www.ijpmonline.org. No password is required for all these download.

I therefore request all esteemed members of IAPM to make IJPM their first choice journal both for contributing as well as while referencing.

Prof. Ranjan Agrawal
MD; FICPath; MIAC
Editor-in-Chief, IJPM
