The first On- site Conference Organised by “ **Association of Thoracic Pathologists**”
In association with ESIC Medical College and Superspeciality Hospital, Hyderabad

Welcome Message

William Osler, the famous Canadian, wrote “As is our Pathology so is our practice...what the Pathologist thinks today, the Physician does tomorrow.” This statement holds very much true in the practice of modern Pulmonary Medicine

The Clinical management of Neoplastic and Non neoplastic lung diseases has changed significantly in the recent past. The Pathologist is not only expected to make the right diagnosis but also guide the Clinician in therapeutic decision making and patient management

These expectations together with the rapid advances in both diagnostic and therapeutic modalities poses both opportunities and challenges to the Practicing Pathologists.

To deal with these aspects “Association of Thoracic Pathologists” (former “Pulmonary Pathology Teaching Club” (PPTC)) has started the virtual program “Diagnostic Pulmonary Pathology Web series” in 2020 and is successfully running the Season 4 episode currently.

Now this Association in collaboration with ESIC Medical college and hospital, Hyderabad is organising the first On-site conference with Dr. Henry D. Tazelaar , the pioneer and Legend in the field of Pulmonary Pathology

On behalf of the Organising team it’s my pleasure to invite you all to participate in the “ Pulmonary Pathology League 2023 “ Conference, enjoy the Lung Academic Feast and make it a grand success

“Wish you all a Happy Lung Learning”
